## **Rules for unscheduled rows:**

If a group wishes to take a boat out of the bay, they must first attend a Friday morning meeting to get permission.

If your group wishes to take a boat out, within the bay at a time other than your scheduled rowing time, you must first check the schedule board in the shelter, or the web site, to see if it is available.

- a) If both boats are available during the time that you'll be out, call Bev Larson (scheduler) and at least leave a message that you are taking a boat out. If you do not reach her, or don't wish to leave a message, contact any officer and tell them.
- b) If you check the board and only one boat is available, again, call Bev Larson (or an officer) and tell her that you are taking a boat. ***Then call the master*** who is scheduled to row and ask if it will be a problem.
